

Utah ECIDS Term Dictionary

Term	Definition
Active Attendance	The number of children whose actual attendance was greater than 95% attendance rate, based on the selected timeframe.
Age Interval Pattern Results	The number of children that received screens at each ASQ age interval in the specific interval pattern selected.
ASQ	Ages and Stages Questionnaires—early childhood developmental screening tools used to determine if infants, toddlers and young children are meeting age-appropriate milestones.
ASQ Age Interval(s)	The report ASQ Age Interval(s) the user wants to include in the report.
ASQ Enrollment	Enrollment = ASQ screening.
ASQ Enterprise Account	This is a Brookes ASQ Online account (e.g. DHHS: Office of Early Childhood (DHHS-OEC); DWS: Office of Child Care (DWS-OCC)) that contains ASQ screening data from one or more ASQ programs.
ASQ Interval Sequence	The ASQ interval sequence from the selected ASQ #6 report that will be used to generate report data.
ASQ Interval Sequences Report	The selected ASQ #6: ASQ Interval Sequences report that will be used as the basis for the development report.
ASQ Program(s)	The ASQ program(s) that contribute data to ECIDS that the user wants to include in the report.
ASQ Questionnaire Type	The report ASQ Questionnaire Type the user wants to include in the report.
ASQ Screening Count	The number of ASQ screenings.
ASQ Screening Count by Interval and Result	The number of ASQ screenings broken down by age interval and screening result.

Attendance Summary By Agency	A more detailed (by Agency) version of the Attendance Summary By Program.
Attendance Summary By Classroom	A more detailed (by Classroom) version of the Attendance Summary By Program.
Attendance Summary By Month	A more detailed version of the Attendance Summary by Program that displays the Active and At-Risk attendance counts for each month, and a breakdown of the Chronically-Absent percentages.
Attendance Summary By Program	The overall Head Start defined attendance summary for the selected Head Start Program(s), based on the selected filter criteria.
Attendance Summary By Program Type	A more detailed (by Program Type) version of the Attendance Summary By Program.
Attendance Summary By Site	A more detailed (by Site) version of the Attendance Summary By Program.
Attendance Type	The education setting (e.g. class, home) that the child participated in the selected Head Start Program(s).
Best gender, race, and ethnicity data across all programs	Race, ethnicity, and gender data utilize the best information across all ECIDS programs (regardless of the ECIDS programs selected).
Best gender, race, and ethnicity data within program	Race, ethnicity, and gender data utilize the best information within a single ECIDS program.
BWEIP Enrollment	Enrolled in Individualized Family Service Plan (IFSP) services.
Certification Re-Instate Reason	The reason why an individual's WIC certification was re-activated.
Certification Termination Reason	The reason why an individual's WIC certification was de-activated.
Child Age	A child is younger than the selected "Child Age" at the beginning of the "Enrollment Year" and "Enrollment Month" timeframe.

Child ASQ Screening Domain Results	The count of the results of the ASQ-3 screening for each ASQ interval within the underlying ASQ interval sequence pattern broken down by domain (e.g. communication, gross motor).
Child ASQ Screening Results and Scores	The average of each ASQ score by result (Above, Monitoring, Below) and the associated child count within the underlying ASQ interval sequence pattern.
Child ASQ Screening Results and Scores by Domain	The average of each ASQ score by result (Above, Monitoring, Below) and the associated child count for each domain within the underlying age interval sequence pattern.
Child Count By Program	These counts are distinct counts within a program (e.g. if the same identity has two different identifiers in Program A, it will only be counted once) with the user selected filters.
Child Counts by Crossover Programs	The crossover child ECIDS or ASQ program count who were enrolled with the user selected filters.
Child Counts by Program Sequence	The applicable child count of the applicable ECIDS program(s) sequence based on the enrollment start date with the user selected filters.
Child Detail Counts By Month	The distinct child count trends of actively certified children within WIC by month.
Child Summary Count By Agency	The total number of distinct children that were enrolled in the Head Start agency(s).
Child Summary Counts	The total number of distinct children that were enrolled based on the selected filter criteria.
Child Summary Counts By Classroom	The total number of distinct children enrolled in each Head Start Classroom within a Site.
Child Summary Counts By Re-Instate Reason	The count of children whose WIC certification was re-activated by Re-Instate Reason.
Child Summary Counts By Site	The total number of distinct children enrolled at the each Head Start site within an Agency.

Child Summary Counts By Termination Reason	The distinct child count whose WIC certification was deactivated by termination reason.
Children with ASQ Screening(s) from a Single Enterprise Accounts	Number of children with ASQ screenings from a single enterprise account.
Children with ASQ Screening(s) from a Single Program	Number of children who are only enrolled by a single ASQ Program with the user selected filters.
Children with ASQ Screening(s) from Multiple Enterprise Accounts	Number of children with ASQ screenings from multiple enterprise accounts.
Children with ASQ Screenings from Multiple Programs	Number of children who are enrolled by multiple ASQ Programs with the user selected filters.
Child's First Screen	The first time a child was screened during the timeframe by the applicable selected account and/or program.
Chronically Absent	The number of children whose actual attendance was less than a 90% attendance rate.
Cohort Sequence	The chronological sequence of ECIDS Program enrollment "start dates" and applicable ASQ interval(s) screening dates.
County(s)	Include children only from the selected counties in the report.
Crossover Child Enterprise Account Count	The crossover child ASQ enterprise account count (x-axis and y-axis) who were enrolled with the user selected filters.
Crossover Child Program Count	The crossover child ECIDS or ASQ program count (x-axis and y-axis) who were enrolled with the user selected filters.
Crossover Children Counts	The number of children that were enrolled in multiple Head Start Programs during the selected filter criteria.
Display Zip Codes Covered by Counties	Show the zip codes covered by the selected counties in the report header.
Distinct Child ASQ Screening Results	The count of the result types of the ASQ screening for each ASQ interval within the underlying ASQ interval sequence pattern.

Distinct Child Count	This is a count where a child is only counted once even if he/she is included in multiple programs with the user selected filters.
Distinct children enrolled in a single program based on the program(s) selected	Number of children who are only enrolled by a single ECIDS Program with the user selected filters.
Distinct children enrolled in multiple programs based on the programs selected	Number of children who are enrolled by multiple ECIDS Programs with the user selected filters.
Distinct children previously enrolled without a current enrollment	The total number of distinct children who had a previous enrollment to the selected timeframe AND who DO NOT have an enrollment with the user selected filters.
Distinct Count	This is a count where a child is only counted once even if he/she is included in multiple programs.
ECIDS	Early Child Integrated Data System, a de-identified early childhood data system.
End Date	The end date of the report (inclusive).
Enrolled/Enrollment	A yes/no variable and does not indicate length of participation (e.g. this data set may include children enrolled for days, months, or years).
Enrollment Details Display	The Enrollment dynamic that the user wants to include and display in the report.
Enrollment Month	The enrollment timeframe for a specific "month" (start of the month to the end of the month) or "All Months" (for the entire year).
Enrollment Year	The enrollment timeframe for a specific "year".
Filter by Geographical Area	The method to use to filter children only living in a specific geographical area.
Filter Children with Zip Codes	Include only children in the selected zip codes in the report.

Gender(s)	The child gender(s) to include in the report. Note: "Other" includes children with an unknown or missing gender.
Geographical Area	The user-selected applicable report geographic location(s) for which the included children in the report are required to have location data. <ul style="list-style-type: none"> • Statewide: The data is not displayed by county or zip code. Results displayed represent the entire state of Utah. • Zip Code: Filter children included in the report by zip code. • County: Filter children included in the report by county.
Head Start Agency	The Head Start organization that provides localized services.
Head Start Classroom	The Head Start room within each site that a child is enrolled in.
Head Start Program Summary	The detailed count of children enrolled based on the selected filter criteria (by Head Start Program, Program Type, Agency, site and classroom).
Head Start Program(s)	An organization grantee that manages the Head Start (HS), Migrant/Seasonal Head Start (MSHS) and/or Early Head Start Program(s).
Head Start Site	A location of the local Head Start Program(s) that the child is enrolled at.
Hispanic or Latino	The child ethnicity type to include in the report.
Home Visiting Affiliate	The organization that performs the actual home visits.
Home Visiting Affiliate Summary	The number of enrollees by funding source(s) within each affiliate organization.
Home Visiting Funding Source	The funding source that paid for the provided home visit services.
Max Report Date	The latest date supported by the report.
Mild At-Risk Attendance	The number of children whose actual attendance was between 90% and 95% attendance rate, based on the selected timeframe.

New and Previously Enrolled Counts	The same child may be included in both the "Previously Enrolled" and "Newly Enrolled" categories if they meet the criteria described.
Newly Enrolled	The start date of enrollment occurs during reporting timeframe.
Number of children enrolled, enrollment started during the specified timeframe	The start date of enrollment occurs during the user selected report timeframe.
Number of children enrolled, enrollment started prior to the specified timeframe	The child was enrolled and not exited prior to the start date of the user selected report timeframe.
Number of children who have ASQ screening(s)	This is a count where a child is only counted once even if he/she is included in multiple of the selected ASQ programs with the user selected filters.
Number of Date Intervals	The number of date intervals (Years, Quarters, or Months) that the report should generate data for. The maximum number of date intervals that can be selected is 12.
Previously Enrolled	The child was enrolled and not exited prior to the start date of the timeframe.
Program	A program who may (e.g. early intervention, head start) or may not (e.g. birth and death registries) require enrollment.
Program Type(s)	The type (e.g. Head Start (HS), Migrant/Seasonal Head Start (MSHS) and Early Head Start (EHS)) of Head Start Program that the child is enrolled in.
Program(s)	The ECIDS program(s) that contribute data to ECIDS that the user wants the report to include.
Race(s)	The child race(s) to include in the report.
Report Date Interval	The interval based on which the report will generate and display data. The user can select Annual, Quarterly, or Monthly.
Report Timeframe	The user-selected report timeframe. Note: The report timeframe is the primary field used to

determine the applicable children the report will include.

Screen Results By Domain	The total of each result (Above, Monitoring, Below) broken down by domain (Communication, Gross Motor, Fine Motor, Problem Solving, and Personal Social) from ASQ-3 Screens.
Screening and Child Counts by Display Interval	The number of ASQ screens, children screened, and children that received their first ASQ screening during the selected report timeframe.
SCSS	Small Cell Size Suppression. It means the actual value is less than the suppression limit and therefore suppressed. The standard suppression limit is 10 and the suppression limit for ASQ reports is 10.
Start Date	The start date of the report.
Summary Child Count (non-distinct)	This is a count where a child will be counted once every time he/she appears in an program with the user selected filters. Note: The same child may appear more than once in the same program or in multiple programs.
Total Children with Multiple Account Screenings	The total number of children with screenings from multiple ASQ Enterprise Accounts.
Total Children with Single Account Screenings	The total number of children with screenings from a single ASQ Enterprise Account.
Utah Birth Registry Filter Options	The report Utah Birth Registry options the user want to include that is applicable to the ECIDS program(s) selected: <ul style="list-style-type: none"> • N/A: Includes children born in Utah and outside of Utah. • Yes: Includes only children born in Utah. • No: Includes only children born outside of Utah.
WIC Enrolled Caseload	Certified (approved) for benefits but MAY OR MAY NOT be using benefits.
Zip Code Filtering Mode	Filtering mode for user-provided zip codes. <ul style="list-style-type: none"> • Inclusive: Only include children that have location data for the provided zip codes.

- **Exclusive:** Only include children that do not have location data for the provided zip codes.
